

09/07/25 : Cyber Security :

AES (Advanced Encryption Standard) :

Symmetric encryption algo: t rounds

Key size: 128 / 192 / 256 $\rightarrow 10, 12, 14$

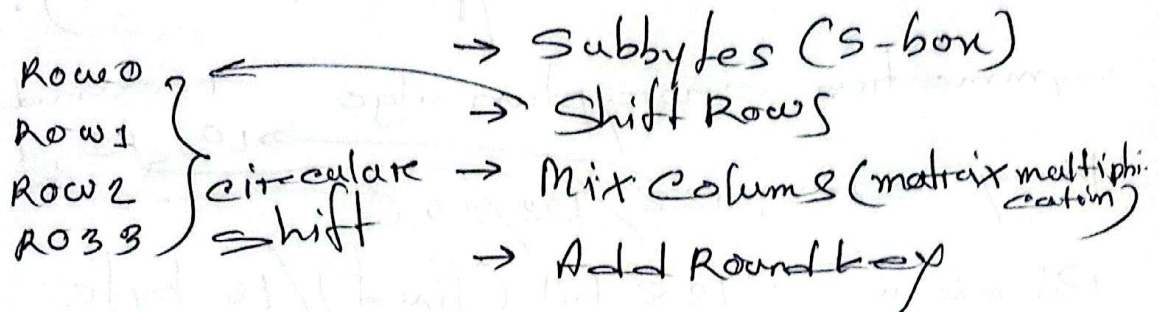

Block size: 128 bit (fixed) / 16 byte

AES Round Structure

- Initial Round

- $N-1$ main Round

- Final Round

Skipped Mix Columns (only 3)

AES Decryption : Cyphers $\rightarrow$ plaintext
